

ZTT Enters into Japan market

ZT again successfully developed the most demanding market. A commercial cooperation was set up recently in Japan. With ZTT's most stringent requirement in quality assurance and control, products manufactured are well appreciated by the customers in Japan. Daimei Telecom Engineering (TSE:1943), one of the Big Four contractors of Nippon Telephone & Telegraph (NTT), select ZTT as its strategic partner on fiber optic cables and related telecom products after the recent business activities done by ZTT in Japan.

The cooperation between Daimei and ZT again provided a solid evidence of the management philosophy of ZTT and its products quality are well up to international level. ZT shall further work closely with the customers in the worldwide market in order to develop new product to serve the ever changing information technology market.
