

ZTT's OPGW Fiber Splicing Closure exported to Uruguay

One of the major power utilities in Uruguay, UTE, selected ZTT as its strategic supplier on Fiber Optic Splicing Closure products recently. UTE is the most aggressive power utility in Uruguay to provide electricity and telecom transmission services in the region. With the value for price sales services and best performance product, ZTT successfully awarded a tender for a contract of PTK series Fiber Optic Splicing Closure for UTE.

ZTT is not only a professional cable manufacturer but also a total solution provider. "We understand well the need of my clients because we are not only delivery cable. We are also care about the application of our product and the real need of my clients. The product manufactured are well designed to fit for the ever changing market. Therefore, our solutions are exceeding the expectation from the market." said by Julian Chan, General Manager of Hong Kong.

PTK Fiber Optic Splicing Closure is a professional closure specially design for OPGW. Dome type design provides reasonable installation structure. Body is made of Al-Alloy while the fixing is made of Steel. High tensile strength is good for extreme environment and reliable for long term application use. Flexible installation of Fusion Splicing trays offered 12-72 fibers capacity in different project requirement.
